BGIS Partners With Avetta As 3rd Party Compliance Management Service Provider

April 1, 2021

BGIS is excited to announce our new relationship with Avetta (www.avetta.com) as our 3rd party supplier compliance provider for our Canadian Clients effective today (April 1, 2021). We are very excited about the enhanced value the Avetta platform will deliver in streamlining the compliance process and enabling financial savings for our Suppliers.

This email is to inform you of upcoming changes that will affect your company regarding the qualification requirements to provide services for BGIS and our Canadian Clients.

You are not required to renew your subscription **with ComplyWorks in connection with BGIS**. Avetta will be offering a Bridge Program Discount for suppliers transitioning from ComplyWorks and registering a new Avetta account.

BGIS suppliers will be required to immediately register or connect your existing Avetta account to BGIS and pre-qualify. This communication serves as an early introduction to the revised BGIS Supplier Compliance Program for your organization. Later today you will receive a communication directly from Avetta with the additional details.

We appreciate and value your service and cooperation.

Please do not hesitate to contact BGIS Vendor Compliance at SCA@bgis.com if you have specific questions about your working relationship with BGIS.

Regards,

John Castelhana
VP Strategic Sourcing, North America
